UPDATE

SUFFOLK, Virginia (April 9, 2019) Suffolk Police advise that the overturned tractor trailer has been removed and that all lanes of travel have been reopened in the previously affected 6000 block of Holland Road/Route 58.

OVERTURNED TRACTOR TRAILER ROUTE 58

SUFFOLK, Virginia (April 9, 2019) The Suffolk Police Department and Suffolk Fire & Rescue responded to the scene of a single vehicle accident involving an overturned tractor trailer in the 6000 block of Holland Road/Route 58 earlier this afternoon.

Emergency Communications received the call at 2:50 p.m. advising of the accident which initially closed all eastbound lanes and one westbound lane in the 6000 block of Holland Road/Route 58. The adult male driver received emergency medical assessment and treatment by Suffolk Fire & Rescue personnel before being ground transported to a local hospital for treatment of non-life threatening injuries. The cause of the accident remains under investigation.

At this time all eastbound lanes in the 6000 block of Holland Road/Route 58 remain closed and are expected to remain closed for several hours as crews work to upright the tractor trailer. Public Works is currently detouring eastbound traffic via OKelly Drive, Trumpet Drive, Longstreet Lane and returning to Route 58 eastbound. This detour is unable to accommodate oversized vehicles/tractor trailers.
