Specialists for Women Expands in Suffolk

SUFFOLK, Virginia (June 13, 2019) – The medical office of Specialists for Women has moved and expanded from their Sentara Obici Hospital location around the corner, to 2050 Hillpoint Boulevard N., off of Route 10/Godwin Blvd. The new 12,000 square foot location allows for greater comfort and services for patients and their families. To celebrate, they hosted a Ribbon Cutting ceremony on Wednesday, June 12th along with Suffolk Mayor Linda T. Johnson, staff and many family and friends in attendance.

Dr. Benigno Federici and his medical team provide a variety of women’s health care including obstetrical care, family and fertility planning, breast exams, GYN exams and menopause management. They also have a physician specializing in urogynecology.

Commenting on the new location, Dr. Federici noted, “It has been my honor and privilege not only to live in Suffolk, but to take care of generations of the citizens of Suffolk for more than 20 years, and I’m looking forward to continuing the relationship for many more years to come.”

“Access to quality healthcare in Suffolk is deeply important,” said Suffolk Mayor Linda T. Johnson. “It is vital that women and their families have every opportunity to obtain exceptional care, at the right time, and in a convenient location. We wish Dr. Federici and his team much success in their expansion.”

Patients are now being seen at the new location. Hours are Monday through Thursday by appointment. They also operate a location in Harbour View. See <https://www.specialistsforwomen.com/page/benigno-federici,-ms,-md,-facog/> or call 757.539.3911 to learn more.
