## **Command Post Technologies, Inc. Recognized for Continued Excellence by *Inc. 500/5000***

SUFFOLK, Virginia (August 23, 2013) Command Post Technologies, Inc. (CPT) was presented with several awards by *Inc.500/5000* magazine in their 2013 Inc. 500 special edition. Command Post Technologies was honored with ranking 112th on this year's list across the United States, ranking 7th in the Top 100 of Government Service Companies in the United States, and ranked 7th in the top 100 companies in the Commonwealth of Virginia.

For 32 years, *Inc.* has welcomed the fastest-growing private companies in America into this very exclusive club. Companies are evaluated on their revenue growth over a 3-year period against leading companies across the U.S. CPT revenue grew at a rate of 3,190% over the 3-year period that ended December 31, 2012.

Command Post Technologies, Inc. began operations in Suffolk in 2009 and is a service disabled, veteran-owned small business. They provide a broad range of professional services supporting the Department of Defense (DoD), other federal agencies and commercial customers that include program management, engineering and analysis, cyber warfare support, and has adapted its military training model to support corporate leader development training. "We're extremely humbled to receive this award and it is a real testament to the team of dedicated professionals we've assembled to help our customers achieve their goals." Scott Bisciotti, President.
