PORTION OF DOWNTOWN AFFECTED BY ELECTRICAL OUTAGE

SUFFOLK, Virginia (August 22, 2017) Suffolk Emergency Communications was made aware at approximately 3:30 p.m. of a downed live power line at the intersection of Market Street and Pine Street downtown which has caused the closure of this intersection and affected the traffic light at Saratoga Street and Market Street.

Additionally, the traffic light at Finney Avenue and Pinner Street is also out at this time due to a tree branch that has fallen on a power line at Katherine Street and East Constance Road.

Emergency responders are on scene at both locations and Dominion Virginia Power has been notified.

As a result of this power outage the Morgan Memorial Library closed at 4:00 p.m. for the balance of the day. Suffolk City Hall remains open and is operating on generator power.
