

## Documentation of FHWA Review

State Project Number: U000-133-R94

UPC: 111089

Based on preliminary environmental impact information compiled by VDOT, FHWA approved this project as a Categorical Exclusion on July 7, 2019. Based on my review of the Categorical Exclusion documentation submitted by VDOT, I find this information acceptable and sufficient as supporting documentation to support the original Categorical Exclusion determination.
