City of Suffolk, Virginia  
Department of Planning & Community Development  
Division of Planning  
Chesapeake Bay Preservation Act  
Exception / Encroachment

This application should be used when submitting a request for an exception or encroachment to the requirements of the Chesapeake Bay Preservation Area (CB) Overlay District Ordinance. The intent of the Overlay District is to provide special regulatory protection for land and water resources located within the designated Chesapeake Preservation Area within the City of Suffolk. The application shall identify the impacts of the development proposal on water quality and on lands within the Resource Protection Area through the performance of a water quality impact assessment in accordance with the provisions of Appendix B, B-13. The following application requirements are consistent with the review procedures set forth in Section 31-415.

Office Use Only

1. APPLICATION FOR:

[ ] CBPA Encroachment –
Construction of a principal structure on an undeveloped lot or the construction of an addition on the principal structure (on a lot created prior to March 1, 2002) with an encroachment of no more than 50’ into the 100’ RPA Buffer.

[ ] CBPA Exception –
Construction of a principal structure on an undeveloped lot (lot created March 1, 2002 or after) with an encroachment, any encroachment of less than 50’ or any encroachment of an accessory structure into the 100’ RPA Buffer.

Proposed Use or Activity: ________________________________________________

2. PROPERTY DESCRIPTION:

Property Address (if any): ________________________________________________

Name of Subdivision (if applicable): ________________________________________

Section: _____ Block: _____ Lot: ______

Zoning District: ______________________

Tax Assessor’s Map and Parcel # ______________________

Tax Account Number: ________
3. **ENGINEER / SURVEYOR INFORMATION:**

   Name: __________________________________________
   Company: _________________________________________
   Address: _________________________________________
   Telephone Number: __________________ Fax Number: ______
   Email: __________________________________________

4. **AUTHORITY FOR APPLICATION**

   This application must be signed by the owner(s) of the subject property or must have attached to it written evidence of the owner’s consent, which may be in the form of a binding contract of sale with the owner’s signature or a letter signed by the owner(s) authorizing the applicant to act as his or her agent. Signing this application shall constitute the granting of authority of the City to enter onto the property for the purpose of conducting site analyses.

   **PROPERTY OWNER(S):**

   Name(s): _________________________________________
   Address: _________________________________________
   Telephone Number: __________________ Fax Number: ______
   Email: __________________________________________

   ___________________________    _____________________________
   Property Owner Signature  Date  Property Owner Signature  Date

   Name(s): _________________________________________
   Address: _________________________________________
   Telephone Number: __________________ Fax Number: ______
   Email: __________________________________________

   ___________________________    _____________________________
   Property Owner Signature  Date  Property Owner Signature  Date

   **APPLICANT(S):** (Complete if different from property owner)

   Name(s): _________________________________________
   Company: _________________________________________
   Address of Applicants(s): ___________________________
   Telephone Number: __________________ Fax Number: ______
   Email: __________________________________________

   ___________________________    _____________________________

   Revised 10-3-2014
IN ACCORDANCE WITH SECTION 31-415 AND APPENDIX B, SECTION B-13, APPLICATIONS FOR CHESAPEAKE BAY PRESERVATION ACT EXCEPTION OR ENCROACHMENT MUST INCLUDE THE FOLLOWING INFORMATION:

1. A site plan prepared in accordance with the requirements of Section 31-307 of the Zoning Ordinance; or a subdivision plat prepared in accordance with the requirements of Article 5 of this Subdivision Ordinance.

   If a Minor Water Quality Impact Assessment (WQIA) is required, the notation “Minor Water Quality Impact Assessment” should be depicted on the survey.

3. A stormwater management plan consistent with Appendix B, § B-12).

4. Identification of an area on the lot or parcel, equal to the area of encroachment into the buffer, which will be revegetated.

5. Installation and Bonding Requirements.

   A. Where buffer areas, landscaping, stormwater management facilities or other specifications of an approved plan are required, no certificate of occupancy shall be issued until the installation of required plan materials and/or facilities is completed, in accordance with the approved site plan.

   B. When the occupancy of a structure is desired prior to the completion of the required landscaping, stormwater management facilities, or other specifications of an approved plan, a certificate of occupancy may be issued only if the applicant provides to the City a form of surety satisfactory to the City in an amount equal to the cost associated with completing the required landscaping or stormwater management facilities and/or maintenance costs for any required stormwater management facilities during the construction period.

   C. After all required actions of the approved site plan have been completed, the applicant must submit a written request to the City of Suffolk for a final inspection. If the requirements of the approved plan have been completed to the satisfaction of the City of Suffolk such unexpended or unobligated portion of the surety held shall be refunded to the applicant or terminated within sixty (60) days following the receipt of the applicant's written request for final inspection.
Step 1: Compile Site Specific Data (Note: unless otherwise noted, round to nearest 3\textsuperscript{rd} decimal place.) (Note: One (1) acre equals 43,560 square feet.)

1. Area of Lot (excluding wetlands or water) = \( A \)
   
   Area of Lot (in square feet) \( \div \) 43,560 = \( A \)
   
   \[
   \frac{\text{Area of Lot}}{43,560} = A
   \]

   \( A = \) __________ acres

2. Current Impervious Area = \( I_a \) ***(Skip this Equation if the Property Is Currently Undeveloped)***
   Impervious area includes all surfaces covered by roofs, concrete, or gravel (including sidewalks and driveways). This includes all structures regardless of whether they are set on a permanent foundation (including sheds, swimming pools, and gazebos).

   structures \( \quad \) __________ square feet
   parking \( \quad \) __________ square feet
   sidewalks \( \quad \) __________ square feet
   roadway \( \quad \) __________ square feet
   other \( \quad \) __________ square feet
   additions \( \quad \) __________ square feet
   accessory \( \quad \) __________ square feet

   Total: \( \quad \) __________ (square feet) \( \div \) 43,560 = \( I_a \)

   \( I_a = \) __________ acres

3. Proposed Impervious Area (after proposed construction) = \( I_b \)

   structures \( \quad \) __________ square feet
   parking \( \quad \) __________ square feet
   sidewalks \( \quad \) __________ square feet
   roadway \( \quad \) __________ square feet
   other \( \quad \) __________ square feet
   additions \( \quad \) __________ square feet
   accessory \( \quad \) __________ square feet

   Total: \( \quad \) __________ (square feet) \( \div \) 43,560 = \( I_b \)

   \( I_b = \) __________ acres
Enter these equations from the previous page:

\[ A = \underline{\text{ acres}} \]
\[ I_a = \underline{\text{ acres}} \]
\[ I_b = \underline{\text{ acres}} \]

3. Percent of site covered by impervious surfaces before development (Current) = \( I_{\text{site a}} \)

***(Skip this Equation if the Property Is Currently Undeveloped)***

\[
\left( \text{Total } I_a \div A \right) \times 100 = I_{\text{site a}}
\]

\[
\left( \underline{\text{ } \div \underline{\text{}}} \right) \times 100 = I_{\text{site a}}
\]

\[
I_{\text{site a}} = \underline{\text{ }} \%
\]
(Note: Round to nearest whole number)

4. Percent of site covered by impervious surfaces after development (Proposed) = \( I_{\text{site b}} \)

\[
\left( \text{Total } I_b / A \right) \times 100 = I_{\text{site b}}
\]

\[
\left( \underline{\text{ } \div \underline{\text{}}} \right) \times 100 = I_{\text{site b}}
\]

\[
I_{\text{site b}} = \underline{\text{ }} \%
\]
(Note: Round to nearest whole number)
