UPDATE

SUFFOLK, Va. (April 15, 2009) Work on Rt. 460 was delayed today due to weather. Work will begin tomorrow morning and is scheduled to be completed on Friday.

NEWS RELEASE

SUFFOLK, Va. (April 14, 2009) Suffolk Department of Public Works announces that both west bound lanes of Route 460, from the Route 58 by-pass to just east of Rob's Drive, will be closed tomorrow morning. West bound traffic will be merged into a single lane that will be directed onto the inside east bound lane of Route 460, with the outside east bound lane remaining open to east bound traffic.

The lane closure is expected to begin Wednesday morning and will continue through Thursday, with all lanes reopening by the end of the day on Thursday. This will allow for the final paving of this section of Route 460 to address ride-ability issues with the recently installed pavement. Access to the Quality Inn Hotel will be maintained by flaggers throughout the paving operation. This scheduled work is weather dependent.

ONE LANE OF RT. 460 TO CLOSE FOR IMPROVEMENTS

SUFFOLK, Va. (March 30, 2009) Suffolk Department of Public Works announces that one lane of Rt. 460 will be closed beginning tomorrow. One west bound lane of Rt. 460, just west of the Rt. 58 bypass, will be closed tomorrow through Saturday. This closure will allow for removal and replacement of a section of curb and gutter and to mill the existing asphalt surface in preparation for a new overlay.

This work is being performed by and paid for by the developer of Virginia Regional Commerce Center to address ride-ability issues with the recently installed pavement. The outside westbound lane will be closed tomorrow, with lane shifts from outside to inside lanes, occurring throughout the week. One westbound lane will remain open throughout this operation. The work is scheduled to be completed by Saturday evening, weather permitting.
