Portion of Whaleyville Blvd. to be Resurfaced

SUFFOLK, Va. (October 15, 2008) – The City of Suffolk Department of Public Works advise that Whaleyville Blvd. (Rt.13) between the Rt. 13/32 split and Babbtown Rd. will be resurfaced October 15-22, 2008. This effort is due to flaws in the original work that was found during the inspection process.

The contractor will be removing the 1½” surface layer of asphalt Wednesday – Friday and begin laying new asphalt and restriping Monday morning. There will be flaggers in place in an effort to minimize the impact on traffic flow.

All additional work is being done at the contractor's expense.
