## **Annual Snow Dry Run in Suffolk**

SUFFOLK, VA (October 27, 2009) If you see snow plows on the roadways it doesn't mean it's time to break out your mittens or plan a snowball fight. The Suffolk Department of Public Works is currently conducting snow dry runs. For several days this week, they will be testing their equipment and traveling routes normally traveled to clear ice covered roads.

This testing is conducted annually out of the Whaleyville Zone Headquarters. Ice clearing equipment will be on Suffolk roadways on October 26, 27 and 28 beginning at 7 a.m.
