North Bound Godwin Blvd. Closed for Utility Repairs

SUFFOLK, VA (January 28, 2009) North bound Godwin Blvd (Rt. 10) is currently closed for utility repairs in the 4600 block. This morning a break was experienced in a 20" water main in that area. North bound Godwin is expected to be closed throughout the day as repairs are made to the main. Crews are targeting to have repairs complete by 5:30.

Since this is a raw water main, no interruption of water service is anticipated.
