Website Created to Assist Impacted USJFCOM Workforce

April 6, 2011 – A new website www.JFCOMtransition.com has been created and is now fully operational to assist U. S. Joint Forces Command (USJFCOM) employees and businesses affected by the upcoming transformation. Featured on the new site is an easy-to-complete survey for those who will be displaced. The site has been designed to help develop a personalized strategy to meet personal, career, and training needs associated with the USJFCOM announcement. In addition, an Assistance Hotline, 757-461-7537, was launched in March.

The new website and hotline are just some of the programs and resources that will be made available to those who will be displaced or whose businesses might be impacted.

Finishing touches are now underway on the One-Stop Career Center known as: *The Virginia Regional Center for USJFCOM Workforce Transition and Business Development*, located in the Bridgeway Technology Center I building at 7025

Harbour View Boulevard, Suffolk, VA 23435. The new career center is scheduled to open in late April, 2011.
