Power Outages Reported in Suffolk

SUFFOLK, VA (May 6, 2010) There appears to be a large scale power outage affecting residences, businesses and schools along the Rt. 58, Rt. 10 and Rt. 460 corridors. This outage is possibly due to a substation outage on Kings Fork Road. Dominion Virginia Power has been notified and is in route.

Suffolk Emergency Communications is currently being inundated with calls for burglar alarms, traffic light outages and customers reporting their service out. Please be aware that the proper notifications have been made in reference to this problem and calls to Emergency Communications to report power outages are not necessary.
