PROJECT GREEN

E CYCLING

RECYCLE YOUR OLD ELECTRONICS
EQUIPMENT AND PROTECT
THE ENVIRONMENT

Americans accumulate close to 50 million tons of electronic waste each year.

There is still much confusion over to how to dispose of it. Dumping e-waste into landfills can release elements that leach into the soil and water. Incinerating e-waste can also release harmful particles into the air. If these items are recycled responsibly, the raw material can be used again.

This is why WVEC-TV13 has partnered with Creative Recycling, Grand Furniture, ASIS Applied Services & Information Systems Companies, the Hampton Roads Planning District Commission and area clean community commissions for the first regional electronic event in Hampton Roads.
