UPDATE

SUFFOLK, VA (May 18, 2019) The contractor has completed the installation of the new sewer lateral to 112 North Main Street. Pavement restoration is complete and the northbound lanes of North Main Street have reopened.

The eastern sidewalk remains closed in front of 112 North Main Street due to wet concrete. The sidewalk will remain closed through Sunday, May 19 to allow concrete to set.

WORK SCHEDULED THIS WEEKEND NORTH MAIN STREET

SUFFOLK, VA (May 15, 2019) Working on behalf of the Department of Public Utilities, a contractor will be performing a sanitary sewer lateral replacement at 112 North Main Street (Main Street Center Building) this Friday, May 17th, Saturday, May 18th, and Sunday, May 19th.

The lateral replacement work is scheduled to begin on Friday night at 8:00 p.m. and extend through the weekend to Sunday evening at 5:00 p.m. Both northbound lanes on North Main Street will be closed to thru traffic between East Washington Street and Bank Street. Northbound traffic will be detoured around the work zone to East Washington St. to North Commerce Street and to Bank Street. Eastbound traffic on West Washington Street desiring to turn north on Main Street will be detoured around

the work zone through North Saratoga Street and Market Street. The left southbound turn lane on North Main Street will be closed; however, the two remaining southbound lanes will remain open for thru traffic between West Washington Street and Bank Street. Detour signage will be in place.

The sidewalk in front of the Main Street Center Building will be closed to pedestrians. Emergency vehicles, residents, and businesses will be accommodated as needed during this work.
