### **SUFFOLK POLICE REMIND MOTORISTS TO STAY SAFE WITH START OF SCHOOL**

SUFFOLK, VA (August 30, 2017) The start of a school year brings excitement as children begin a new educational journey. School days also bring new traffic on the road with school buses and private vehicles transporting students to and from school. The Suffolk Police Department would like to remind all drivers that it is never more important for drivers to slow down and pay attention than when kids are present – especially before and after school.

If you are dropping off your child, make sure you are aware of your school's drop off procedures for the safety of all kids. More children are hit by cars near schools than at any other location, according to the National Safe Routes to School program. The following apply to all school zones:

- Don't double park; it blocks visibility for other children and vehicles
- Don't load or unload children across the street from the school
- Carpool to reduce the number of vehicles at the school

According to research by the National Safety Council, most of the children who lose their lives in bus-related incidents are 4 to 7 years old and they're walking.

They are hit by the bus or by a motorist illegally passing a stopped bus. A few precautions go a long way toward keeping children safe:

- Don't block the crosswalk when stopped at a red light or waiting to make a turn, forcing pedestrians to go around you; this could put them in the path of moving traffic
- In a school zone when flashers are blinking, stop and yield to pedestrians crossing the crosswalk or intersection
- Always stop for a school patrol officer or crossing guard holding up a stop sign
- Take extra care to look out for children in school zones, near playgrounds and parks, and in all residential areas
- Don't honk or rev your engine to scare a pedestrian, even if you have the right of way
- Never pass a vehicle stopped for pedestrians
- Always use extreme caution to avoid striking pedestrians wherever they may be, no matter who has the right of way

If you're driving behind a bus, allow a greater following distance than if you were driving behind a car. It will give you more time to stop once the yellow lights start flashing. It is illegal in all 50 states to pass a school bus that is stopped to load or unload children.

- Never pass a bus from behind – or from either direction if you're on an undivided road – if it is stopped to load or unload children
- If the yellow or red lights are flashing and the stop arm is extended, traffic must stop
- The area 10 feet around a school bus is the most dangerous for children; stop far enough back to allow them space to safely enter and exit the bus

- Be alert; children often are unpredictable, and they tend to ignore hazards and take risks

By exercising a little extra care and caution, drivers and pedestrians can co-exist safely in school zones.
