

NOTICE OF PENDING CONSTRUCTION

Route 460 (Pruden Boulevard)

In order to facilitate improved drainage during extreme weather events, the City of Suffolk plans to install large box culvert drainage structures under the existing roadway. This work will require a full road closure followed by a partial road closure. The anticipated construction start date is February 11th, 2019. At that time, **the road will be closed to all traffic for a period of 90 days**. A detour route will be established via the 460 bypass. On or near May 11th, 2019 the road will be opened allowing for use of one lane in each direction for a period of six weeks. Efforts are being made to minimize the impacts to traffic. However, some delay time and use of the detour route should be expected.

Additional information may be found on the City of Suffolk web site at <https://www.suffolkva.us/680/Pruden-Boulevard-Drainage-Improvements>
